Never Miss A Memory

Innovation – Quality - Longevity

Introducing the lineup of portable computing device content management, backup, and power. These highly touted storage and power products provide the ultimate in added storage, seamless backup, security, and never before seen multi-functional applications.

iXCharger

First ever combination Charger & Hard Drive in a single device.

iXflash

The Multifaceted Swiss Army Knife for your iPhone, iPad, and all portable electronic devices.

iXflash Cube

Set it and Forget it – Auto-backup while Charging.

About Vinpower

Founded in 2001, Vinpower is an award-winning developer of digital storage hardware and media, cross platform power + storage, and mobile Apps.

Never satisfied with good enough, Vinpower constantly pushes the envelope to develop new products and features that enhance the customers' needs and expectations, while maintaining unmatched data security and reliability.

Core Value

Intellectual Property (IP)

Vinpower owns multiple IP's across a range of products from hardware to software and Apps.

Research & Development (R&D)

Vinpower has a solid core of experienced engineers along multiple disciplines creating market-leading products and applications.

Circuit Design

Vinpower designs its own customized board structure for greater capability and quality across our full line of products.

App & Software Development

Vinpower has the ability to develop Apps, firmware, and related PC software across multiple platforms.

IC Design

Vinpower can create custom chipsets to further enhance our product's functionality, providing greater capabilities and reliability.

Robotic Engineering

Vinpower can design a new or adapt an existing robotic mechanism to meet required specifications.

Milestones

2001

Vinpower, Inc. established in Los Angeles, California USA

2005

Developed industrial optical disc robotic autoloader duplicators

2007

- Developed in collaboration with HP, the world's 1st LightScribe standalone duplicators
- Established brand licensing agreement with Xerox.

2011

Partnered with Verbatim for co-branded recordable optical disc media

2013

Acquired OPTODISC MID and Brand

2016

- Introduced exclusive Optiarc H/H optical disc drives (ODD)
- Developed secure iXflash, Apple iPhone & iPad back-up and mobile flash drive

2019

Acquired ACARD duplication hardware and technology

2020

- Acquired Moser Baer brand
- Developed iXflash Cube, automatic secure Apple iPhone & iPad back-up solution

- Acquired Conner brand

2021

Developed new iXflash with Lightning + USB Type C connections

2022

Developed iXCharger 65W combination Hard Drive and Charger for laptops, smartphones, & tablets.

2023-2024

- iXCharger Awarded "Most Innovative Flash Memory Consumer" at Flash Media Summit

Most Innovative Consumer Application

- iXCharger named CES 2024 INNOVATION AWARDS HONOREE

2024

- Introduced the iXCharger 100W & 140W, with up to 2TB of data storage at CES 2024.

- World's first Apple MFi approved iXflash SE with USB-A + USB-C connections

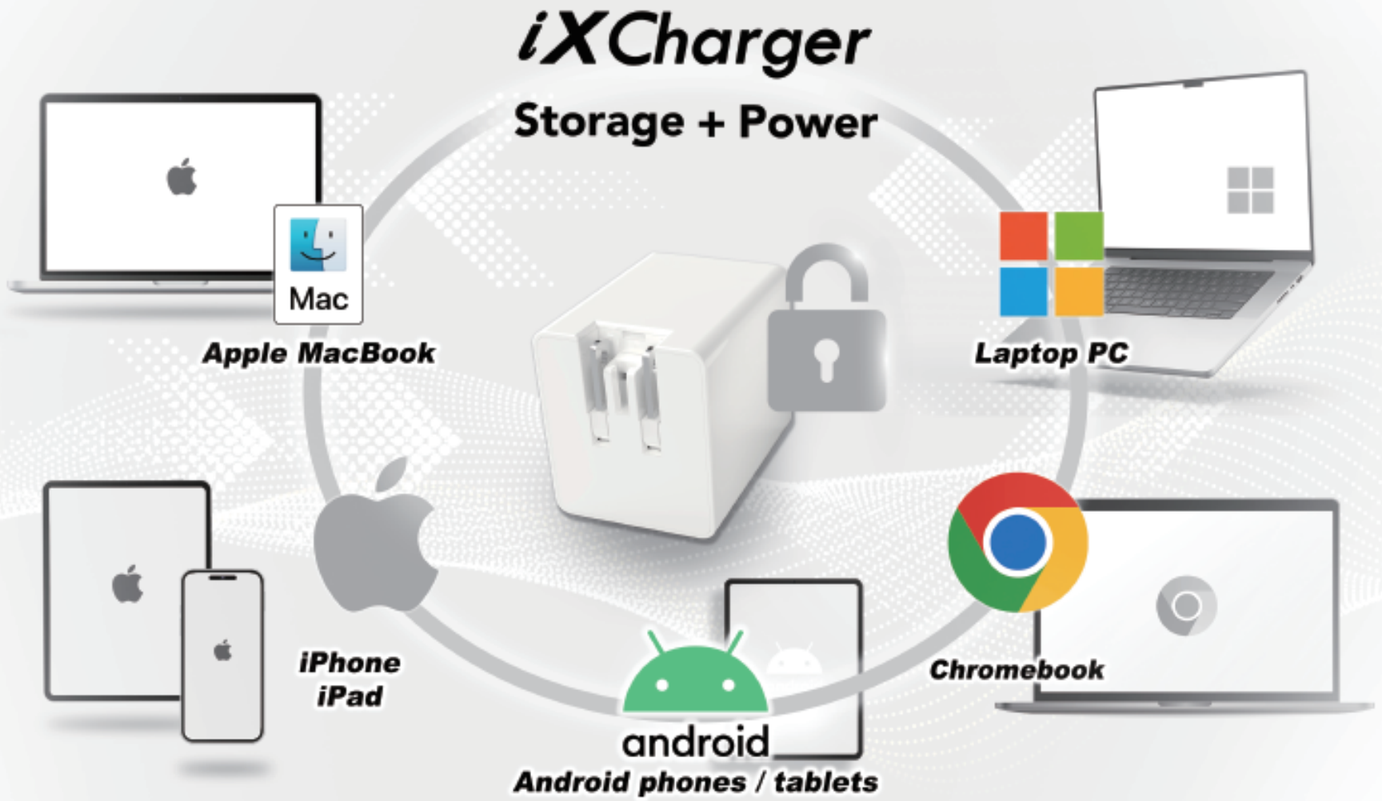
Experienced Flash Sorting

Testing Equipment to Produce 100% APPLE Quality Guarantee

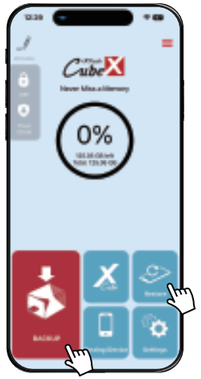
To provide top quality products, start with the highest quality components.
Vinpower is the only company with the knowledge and equipment
to fully test and classify Flash memory at a factory level.
Plus, we only work with the highest caliber suppliers and manufacturers
ensuring our products meet the highest standards
that allow our products to meet Apple's stringent requirements.

One Device For All !

Works across the widest array of computing platforms and operating systems. Supports Apple iOS (iPhone & iPad), Android (smartphones and tablets), plus, Mac, PC, and Chromebook computers for secure data storage, backup, and entertainment.

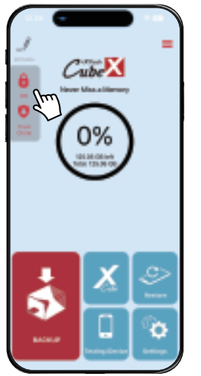


*All trademarks, logos and brand names are the property of their respective owners and used for identification purposes only. Use of these names, trademarks and brands does not imply endorsement or affiliation.



Easy Backup and Restore

Easily backup all stored photos, videos, and contacts, keeping the original meta data. Easily restore those items onto a new iPhone/iPad, maintaining the original date, location, image names, type and more.



Privacy Matters

Trust Circle offers the ultimate in data protection.

Ensures secure access for authorized devices. Using individual ID logins eliminates the need for password sharing, enhancing security and preventing potential leaks.

iXflash Multifaceted Functionality

Easy Backup and Restore

BACKUP & RESTORE

Easily backup and restore photos, videos, and contacts, keeping the original meta data, like date, location, name, type and more.

Live Recording

PHOTO

Take photos and videos directly onto the iX device. Doesn't use any of the iPhone/iPad's internal memory. Offers video pausing and connects to a computer for instant editing.

Read Only/ Write Protect

READ ONLY WRITABLE

Prevents accidental modifications or deletion of any stored content as well as protection against computer viruses and malware.

File Management

Keeps individual device's content in separate folders to easily locate and organize. Works with software not supported by Apple iOS, like certain Zip and audio files, as well as others.

Entertainment Center

Store and playback video and audio content. Watch (MP4, MOV, FLV, etc.) movies or listen to (FLAC, WAV, MP3, etc.) music anywhere. No internet access needed.

Enhanced App and Driver Features

- Developed intuitive and comprehensive MFi certified Apps for Apple iPhone and iPad, with enhanced Android App coming soon.
- Offers secure login functionality for Apple iOS, Android, Mac, and PC platforms.
- Developed specialty drivers for Mac and PC computers.

iXflash The Multi-Functional Flash Drive

Made for iPhone | iPad

- Added storage for an iPhone or iPad. Back-up, Restore, Record Live Video, Transfer Files, Individual File Folders, and More…
- Write Protect feature ensures your memories are safe while you share pictures and videos with family & friends
- Compact size that's easy to carry. Be fashionable and tech savvy in one, making a statement with a color that best reflects you
- Listen to music or watch movies on the go without Wi-Fi

iXflash USB-A and Lightning

Lightning USB3.2 Gen1 Type-A

iXflash SE USB-A and Lightning

Lightning USB3.2 Gen1 Type-A

iXflash USB-C and Lightning

Lightning USB3.2 Gen1 Type-C

iXflash SE USB-C and Lightning

Lightning USB3.2 Gen1 Type-C

iXflash The World's First MFi USB-A & USB-C Drive

Made for iPhone | iPad

- Directly backup photos, videos, contacts, iCloud photos/videos as well as all file types from Google Drive & Dropbox through URL link
- Opens non-organic Apple files, like ZIP files and other compression files, plus it's compatible with Android, PC, and Mac
- Take videos directly to the iXflash and DOES NOT use any memory from the iPhone/iPad!
- Extend battery life and easy editing with Live Recording pause and dark mode features

iXflash USB-A and USB-C

USB3.2 Gen1 Type-C USB3.2 Gen1 Type-A

iXflash SE USB-A and USB-C

USB3.2 Gen1 Type-C USB3.2 Gen1 Type-A

iXflash EZ USB-A and USB-C

USB3.2 Gen1 Type-C USB3.2 Gen1 Type-A

iXflash Cube Auto Backup Solution

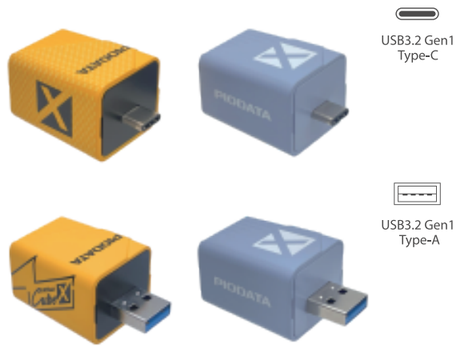
Made for iPhone | iPad

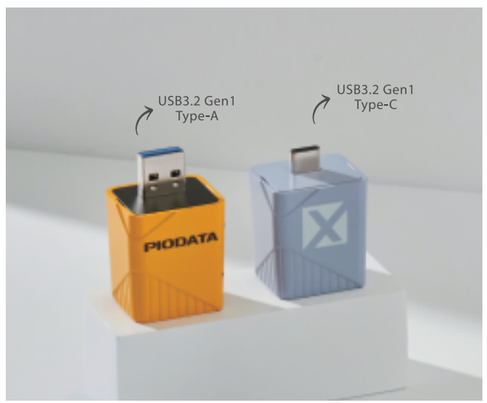
iXflash Cube

- Automatically backup photos, videos, and contacts while charging an iPhone/iPad
- Patented security with the Trust Circle, so you know your content is safe
- Easily transfer content between smartphones, tablets, and computers with USB connection
- Maintain original photo and video quality, image name, date, location, and file type

iXflash Cube

- Use at home or travels with you for use anywhere, anytime, providing peace of mind
- Available with USB-A or USB-C connections for added convenience
- Offers PD compatibility for fast charging to ensure your devices are ready when you are
- No redundancy, preserves storage by not backing up existing files on the iXflash Cube





iXCharger 65W / 100W / 140W

Most Innovative Consumer Application

CES INNOVATION AWARDS 2024 HONOREE

POWER + STORAGE

The ultimate pairing of a power charger combined with a large capacity external storage for a 2 in 1 solution.

- **Compatible with Various Platforms**
  Provides an Apple MFi App compatible with iPhone and iPad, and supports access for Android smartphones and tablets. Additionally, it is compatible with MacBooks, Chromebooks, and a majority of standard PC laptops.

- **Data Protection**
  Offers the Trust Circle secure data protection, for peace of mind.

- **Universal Plug Adaptors Available**
  Take the iXCharger with you anywhere you travel, works with both 110V and 220V.

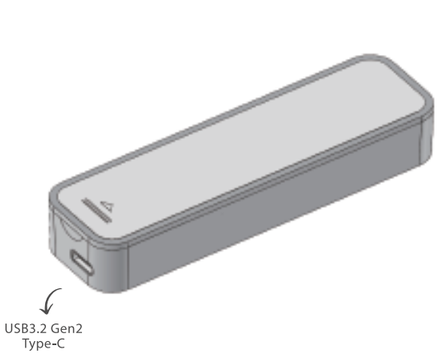
Made for iPhone | iPad

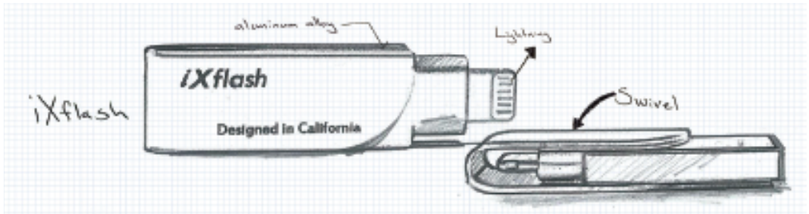
Coming Soon...

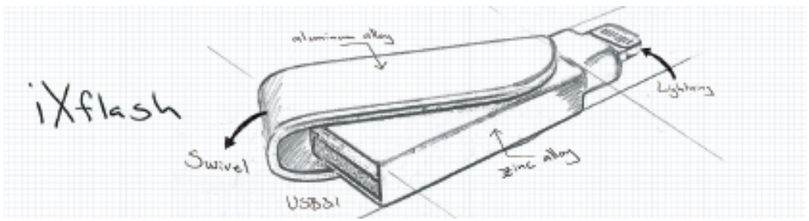
MFi Certified Portable SSD (PSSD)

The PSSD series provides massive storage capacity, with exceptional data transfer speeds up to 10Gbps, and is compatible with all computing devices, including all computers (PCs, Macs, Chromebooks, etc.) as well as all smartphones and tablets (Apple iOS and Android), well beyond any standard flash drive.

Plus, it will come with an exclusive iAP2 iOS App, making it the only SSD product capable of fully interfacing with an iPhone and iPad. The PSSD will be for those that need a much faster transfer rate and far greater storage memory than what is available on the market today, providing the next level of storage and functionality.







OEM Options are Available

We recognize the value of partnering with forward thinking companies.
That's why we offer OEM/ODM opportunities for private label brands.
We work with you to meet your needs.
